

Legislation

Legislative resources and recent or current activity

? <http://krla.org/>

Along with educating, electing strong pro-life leaders, promoting adoption and medical research that does not rely on killing innocent human life, Kentucky Right to Life Association believes in an aggressive pro-life legislative effort to pass laws that protect innocent human life. Not only because pro-life laws serve to protect those who cannot speak for themselves and their mothers, but because the law is a teacher. To that end, we strongly support pro-life federal legislation and we employ lobbyists to work for pro-life legislation in Kentucky.
