New Outreach of Educational Foundation

Kiosk ads are on display at the Oxmoor and Jefferson Malls in Louisville. We are studying other sites as well. We hope to reach more people with the prolife message, and gain their involvement in our activities and educational outreaches.

If you would like to donate to the Educational Foundation, please call us! 502.895.5959.

Our first kiosk ad shows a preborn baby within the waters of the earth. Many are concerned about the environment, and humans from conception to death are due as much respect as any environmental creature or cause— actually, even MORE!
