For Immediate Release

July 31, 2020

KRLA PAC endorses President Donald Trump for the 2020 General Election

Kentucky Right to Life PAC endorsed President Trump early as stated in the 2020 Primary Election PAC Alert Voter Guide.

With the many efforts to undercut his candidacy for re-election this November, we want to restate and republish our full support for President Trump.

The National Right to Life offers a pdf listing nine areas of pro-life support that President Trump has provided. These include:

- Court appointments of conservative judges
- International and national leadership to prevent any USA abortion support
- Protection of pro-life policies and legislation
- Appointment of numerous pro-life advocates in his administration and cabinet

See the full list [<https://www.nrlc.org/uploads/records/trumprecord.pdf>].

President Trump is under extreme attack by the mainstream media and by Congressional members and leaders who espouse or are swayed by un-American philosophies such as Marxism, Socialism and Globalism, or are strenuously critical of his personality.

We encourage all Kentuckians to choose to protect Life and to vote for President Trump in November.
